## Summary

---

Front-end & mobile developer building production web and mobile apps with React (Next.js/Vite), Angular, and Flutter.

I focus on clean UI, performance, and maintainable architecture, and I'm comfortable owning features end-to-end —from implementation to release.

## Experience

---

**Lead Front-end & Mobile Developer**, Beyondi d.o.o. Oct 2023 – Nov 2025

Built and maintained web and mobile applications using Angular and Flutter; owned features end-to-end and collaborated closely with product and engineering.

- Lead developer for web and mobile delivery; coordinated work, unblocked engineers, and ensured quality across releases.
- Performed regular code reviews, enforced standards, and guided architecture decisions to keep the codebase maintainable.
- Contributed to project management by breaking down epics into tasks, writing user stories and acceptance criteria, and supporting estimation.
- Wrote and maintained technical documentation (setup, workflows, feature notes) to improve onboarding and team consistency.
- Shipped and released mobile apps to the App Store and Google Play.
- Owned product systems including auth (web/mobile), payments (Stripe + crypto, incl. asset creation), realtime chat/custom socket events, and Firebase notifications.
- Authored proposals to improve development workflows using pnpm workspaces and a monorepo approach.
- Wrote internal markdown documentation for repository structure, Git workflows, and build automation scripts.
- Introduced lint rules and enforced conventional commits to improve consistency and code quality.

**Assistant worker in production**, Vitafoam Croatia Mar 2021 – July 2023

Assisted production operations and supported manufacturing workflows.

**Construction worker**, Vertex Inženjering Sept 2019 – Oct 2019

Supported day-to-day on-site operations and assisted the team with assigned tasks.

## Projects

---

### **dahliaOS (Open Source)**

- Co-founded the open-source operating system project; helped get it included in the Open Invention Network (OIN).

### **SerpDomains**

- Web product development (frontend ownership across UI and core flows).

### **iVault**

- Mobile app development and release to App Store and Google Play.

### **Chromaverto**

- Mobile app development and release to App Store and Google Play.

## Skills

---

**Frontend:** React (Next.js, Vite), Angular, TypeScript, HTML, CSS, TanStack

**Mobile:** Flutter, Dart

**Tooling:** Git, CI/CD, Webpack, pnpm Workspaces

**Product & UI:** Figma, Adobe Suite

**Backend Services:** Supabase, Firebase

## Education

---

**Industrijsko-obrtnička škola, Slavonski Brod**, High School in Computer Numerically Controlled (CNC) Machinist

Sept 2016 – June 2019

High school diploma program focused on CNC machining.

## Certificates

---

**Responsive Web Design (freeCodeCamp)**

Jan 2023

- Certificate

## Languages

---

**English:** Native or Bilingual Proficiency

**Croatian:** Native or Bilingual Proficiency
